Our all-in-one king of interactive displays

The RX series combines premium interactivity, integrated audio reinforcement, accessibility tools, and SMART’s most advanced teaching experiences in one powerful display. It’s a seamless experience that’s easier to use and manage, so everyone can focus on learning.

The complete classroom experience

Skip costly AV integrations and accessory management with an integrated platform, simplifying deployment and support, with voice amplification, microphones, and instructional tools ready from day one.

Inclusive multi-user interactivity

SMART is the *only* manufacturer with **SMART Ink, letting multiple users write, erase, and gesture at the same time** — anywhere, in any app — without ever interrupting each other’s flow.

Programmable tools and digital manipulatives unlock diverse ways for every learner to demonstrate their understanding.

More capability, more value

Now supporting Android OS updates through Android 19 helping keep devices current for longer. With upgradeable technology, centralized management, and value beyond instruction - from alerts and communications to audio amplification - SMART displays make life easier for your team and help schools get more from every investment.

*Subject to chipset vendor support, Google platform and certification requirements, and successful validation by SMART. Availability, timing, and scope of support are subject to change

SMART iQ 4 OS

Personalized OS for intuitive teaching and IT management

A system designed for security and simplicity with personalized, portable sign-ins and centralized remote management. The most robust, flexible, and accessible OS to date.

Built for IT. Ready for anything

iQ4 combines enterprise-level admin controls and powerful remote management capabilities that scale across your fleet. Ensure data protection, regulatory compliance, and manage and troubleshoot devices centrally without breaking a sweat.

Private. Portable. Protected.

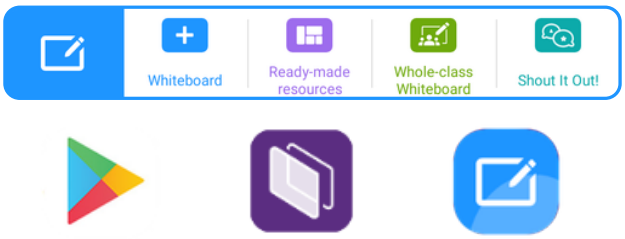

Teachers securely access their profile and cloud files on any SMART display with their **Google or Microsoft credentials** thanks to SMART Account roaming profiles.

- **Your policies, your sign-in.** Flexibly sign in without adding new passwords to manage or compromising security
- **Restrict sign-in to accounts on your domain** for enhanced security
- Lock down guest access

Walk up and teach

The OS that works with what you know.
EDLA-licensed iQ 4 fits right into your district's ecosystem—no retraining required. iQ 4 works great with:

- Google Workspace for Education
- Microsoft Office 365
- Android apps, with full access to Google Play
- Video conferencing platforms

Less training, more teaching.
Built-in apps are so intuitive that even day-one teachers can jump right in to supercharge engagement and maximize student devices.
