## SMART Control included

Manage communications, alerts, signage, and devices - all in one platform.

- **Manage DSN series and other SMART displays** from a unified platform
- Integrates with **CAP alert platforms**
- **Instant communications**
- **Add SMART Control Signage** for organisation-wide content distribution

## Works with your ecosystem

SMART DSN series integrates easily without requiring new tools or workflows.

- **One display, any CMS.** In addition to SMART Control Signage, also supports third-party CMS platforms
- **Built for easy management and integration.** Open APIs and IP control support compatibility with Crestron, Extron, and BMS systems

## Fits any space. Adapts to every use.

Engineered to meet the demands of modern spaces and backed by SMART quality and warranty coverage, this display is built to offer an intuitive user experience and effortless maintenance.

- **Any space, any orientation.** Full support for landscape and portrait across all sizes
- **SMART Mirror screen share** included for effortless presentation
- **Extend content beyond one screen.** HDMI-out seamlessly connects secondary displays
- **Local signage player and caching** to keep content running even during network outages
