The SMART HDMI Cable is an Ultra High-Speed certified HDMI 2.1 active optical cable, tested and guaranteed by SMART to work with all existing SMART Board® interactive displays.

## HDMI 2.1 Specs

- 48Gbps bandwidth
- 8K@60Hz
- 4K@144Hz
- eARC
- HDR
- 10M / 33ft

### SMART Board Validated

Tested and certified by SMART to work with all SMART interactive displays with an HDMI connector.

### Ultra High Speed HDMI Certified

Certified under the Ultra High Speed HDMI Cable Certification Program by HDMI Licensing Administrator (HDMI LA).

### Plenum Rated for Fire Safety Compliance

CMP-rated jacket approved for routing through walls, ceilings, and HVAC ducts. Code compliant for educational and commercial environments in North America.

### 10M / 33ft Active Optical Cable

Hybrid fiber and copper conductors deliver full signal integrity across the entire length. No external power supply required.

### Premium Connectors

HDMI Type-A male, both ends. Die-cast zinc alloy with 24-carat gold-plated contacts.
